

BUSINESSSecurity and Safety of Buildings and Grounds

1. The accumulation of waste paper, rubbish, old furniture, stage scenery, etc., will not be permitted in any part of the school building.
2. Approved metal cans with self-closing covers must be provided for storage of oily wastes, polishing cloths, etc.
3. All floor oil, sealers, paints and paint-related materials mops, rags, etc., used in the upkeep of the school building must be kept in a fireproof container, and none shall be kept in any closet or locker space in the building.
4. No flammable liquids shall be stored in any school building. Exceptions to this are liquids approved for use in certain shops, science, labs, art classrooms and workrooms. There must be less than one gallon, in an approved safety can and stored in special approved steel cabinets.
5. All power-driven equipment such as mowers, snow-plows, etc., shall be stored in a fire-proof area and with the filler cap in place on the tank. The Fire Department recommends that a separate area either detached from the building or separated from the rest of a building by a fire-proof wall be ultimately constructed for the storage of such equipment.
6. All heating equipment, including flues, pipes, and steam lines, must be kept in good serviceable condition and be well maintained.
7. Doors to boiler rooms shall be kept closed at all times during the heating season or when boiler plants are in operation.
