SCHOOL ATTENDANCE AREAS

When a pupil moves from one attendance area to another, the pupil shall normally be transferred to the school in the new attendance area.

A pupil may be given a special transfer to another school in Minneapolis for a satisfactory reason consistent with Board policy. The special transfer must be approved by the transferring and receiving principals or by the appropriate Superintendent.

The residence of all pupils (public or non-public) as of September 1 must be determined for our census report. Therefore, summer withdrawal lists and assigned lists must be cleared immediately.

The principal is responsible for the coordination of attendance activities in the school.
